# Application Sheet GLOBIGEN COLOSTRUM

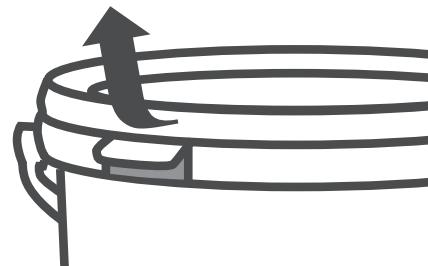

**Globigen Colostrum is a complementary feed for new-born calves, lambs and kids for an additional supply of functional egg and colostrum immunoglobulins during the first days of life. Globigen Colostrum serves as an easy to use colostrum enhancer that supports the immune system, improves gut health and therefore performance and weight gain.**

## Application instructions

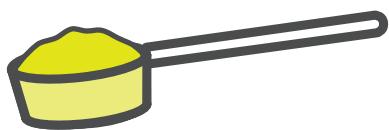

### Step 1:

- 1: Check the feeding recommendation as mentioned on the label

### Step 2:

- 2: Open the tamper-evident seal of the container

### Step 3:

Measure the quantity of product according to the feeding recommendation (measuring spoon included in each package)

### Step 4:

Dissolve Globigen Colostrum in normal milk, milk replacer or water (1:10)

## Feeding Recommendation

Administer Globigen Colostrum within the first six hours of the animal's life.

One heaped measuring spoon = ca. 15 g

Due to its high content of additives compared to the complete feed, this complementary feed should only be fed to the target species, according to the above feeding recommendations.

Species	Regular application rate	Application rate with no colostrum received
Calves	50 – 100 g/animal/day	200 g dissolved in two liters of warm normal milk, milk replacer or water (39°C)
Lambs and kids	5 – 10 g/animal/day	20 g dissolved in 0.2 liters of warm normal milk, milk replacer or water (39°C)

## Recommended Feed Duration

3 – 5 days

## Product Characteristics

Bulk density : 0.98 g/ml

Form: Powder

Appearance: White-yellow\*

Odor: Specific

\*slight color variations may be seen from batch to batch, with no impact on the quality and efficacy of the product

## Shelf Life

12 months from the date of production if stored according to the indicated storage conditions.

Containers which are opened must be carefully closed and kept upright to prevent leakage.

Always store the product in its original packaging.

## Packaging

0.5 kg PP can (white) • 1 kg PP bucket (white) • 2.5 kg PP bucket (white)

## Transportation & Storage

Keep cool (5° – 25°C), free of frost, dry and out of light. Once opened, use as soon as possible.

## Registration & Quality Certifications

The product is distributed in regulatory compliance. The manufacturing of this product takes place in conformity with the local legal requirements and according to recognized feed safety/quality standards (FAMI QS, GMP+, FCA or SFSF).

The product, including all carriers and feed additives used for the production, under the meaning of Regulations (EC) No 1829/2003 and 1830/2003, does not consist of genetically modified organisms (GMO), does not contain GMOs, is not produced from GMOs and due to this it has not been labeled as defined by the above mentioned regulations.
